JOB DESCRIPTION · AH-0253

Livestock Supervisor (LSS)

THE ROLE

Post	Livestock Supervisor (LSS)
Company	An agri-inputs company
Location	Kalewadi Chowk, Daund, Maharashtra
Experience	2–5 years of experience in handling goats
Salary	Rs 18,000–Rs 22,000 / month

ABOUT THE JOB

Asdeano Biotech Pvt. Ltd. is looking for a Livestock Supervisor at its goat farm in Daund, Maharashtra. The role covers daily goat care, health monitoring, record keeping, vaccination and supervision of farm workers. Accommodation may be provided at the goat farm, subject to availability and company policy.

WHAT THE JOB INVOLVES

- Supervise daily goat feeding, watering, cleaning and animal care.
- Monitor animal health and report illness or abnormalities to the veterinary doctor.
- Maintain animal-wise health, vaccination, immunization, medication and plasma collection records.
- Ensure proper animal housing, quarantine, hygiene and biosecurity.
- Manage feed, fodder, medicines and farm consumables inventory.
- Supervise farm workers and follow approved SOPs and animal welfare requirements.
- Perform routine vaccination, immunization and medication of goats as per the approved schedule and veterinary instructions.
- Identify signs of illness or adverse reactions in animals.
- Ensure proper animal handling, hygiene, biosecurity and welfare during all procedures.

WHAT THEY WANT

- Diploma or degree in Animal Husbandry, Livestock Management, Veterinary Science or a related field.
- 2–5 years of experience in handling goats.
- Skills: practical goat handling, animal health monitoring, documentation and staff supervision.
- Accommodation may be provided at the goat farm, subject to availability and company policy.
