## ABOUT THE JOB

Asdeano Biotech Pvt. Ltd. is looking for a Veterinary Doctor for its goat farm at Kalewadi Chowk, Daund. The role covers goat health and welfare, vaccination and treatment, and support for hyperimmune serum production. Accommodation at the goat farm may be provided, subject to availability and company policy.

## WHAT THE JOB INVOLVES

- Monitor and maintain the health and welfare of goats.
- Perform or supervise vaccination, immunization, medication and deworming as per approved protocols.
- Diagnose animal illnesses and prescribe appropriate treatment.
- Monitor animal health, body condition, nutrition and recovery after procedures.
- Supervise and guide the Livestock Supervisor and farm staff in animal care.
- Support hyperimmune serum production, including immunization planning and plasma collection, as authorized.
- Maintain veterinary records, treatment registers, vaccination schedules and mortality reports.
- Ensure proper quarantine, biosecurity, sanitation and compliance with animal welfare requirements.

## WHAT THEY WANT

- BVSc & AH (Bachelor of Veterinary Science and Animal Husbandry).
- Registration with the relevant State Veterinary Council, as applicable.
- 2–5 years of experience in goat handling.
- Skills in veterinary diagnosis, goat health management, vaccination, treatment, animal welfare and documentation.
- Accommodation at the goat farm may be provided, subject to availability and company policy.
